Why Choose **POLY-FURNITURE?**

The warm look and feel of wood, but better!

When disposed of incorrectly, the plastic milk and water containers we use every day are harmful to the environment.

When those items are collected, they are taken to a facility where they are washed, sterilized, and shredded.

The shredded plastic is melted down into plastic pellets.

These pellets are melted down to form planks of poly.

Hochstetler Lawn Furniture uses that poly to build high quality lawn furniture that will last a lifetime.
